Fabián Baptista

Ingeniero en Computación, CIO y co-fundador de Abstracta.

Uruguay

Extracto

Co-founder of Abstracta (2008) and Apptim (2018).

I am heavily involved in product development as Product Owner, Product Manager and CTO. I have wide experience on team hiring & team building activities. Our major R&D efforts ended up on very cool projects around test automation and performance tools for Fortune 500 companies.

From collaborating on several open source initiatives such as JMeter and Selenium to commercial testing products for companies like CA Technologies, at Abstracta, I led product development in two solutions over the test automation space: GXtest (Low-code test automation platform for GeneXus) and Monkop (Fuzzy mobile tests to evaluate UX & performance automatically).

Today, I've joined the Apptim team as CTO to pursue an autonomous UX testing solution for mobile platforms.

Experiencia

Abstracta

17 años 10 meses

Co Founder & CIO

febrero de 2023 - Present (3 años 2 meses)

I led AI transformation Lab & Services to boost the value we provide to our customers.

Co-founder and Director

junio de 2008 - diciembre de 2023 (15 años 7 meses)

Montevideo

We firmly believe that humanity take benefits from a technology based on its level of reliability and efficiency. From autonomous vehicles, Mars rovers, smart irrigation, cell phones to e-commerce sites, the winning technology

will always be the one that we can always count on, and deliver value with the minimum amount of resources that we have. We aim to make the world a better place by helping companies to improve their software development process.

By hiring and developing top developers, devops and testing talent from our offices in Latin America and California, we have created an agile partnership model for seamlessly insourcing, outsourcing(/near-shoring), and/or augmenting pre-existing teams, providing unique value by heavily investing in R&D to test new technologies and build our own tools.

We help organizations implement the right risk management practices and implement projects to achieve efficient and robust software according to their business needs. Whether you need custom technology, testing services, or training to increase your team's collective knowledge, our solutions for each will help you to reduce costs and risks, speed up time to market, and release with confidence.

Chief Operating Officer

enero de 2013 - junio de 2014 (1 año 6 meses)

Uruguay

Chief Operating Officer at Abstracta & Director of Abstracta Labs

Abstracta Labs is the department that creates tools in performance, monitoring and test automation area over Web and Mobile platforms, used by users that love the experience.

In Labs, I was like a PO from several projects, Open Source Tools like MozRepl JSSH, Fiddler / JMeter generator, and comercial such as GXtest and Monkop, integrations with GitHub, AWS Pipeline, Team System, Jenkins, Travis Applitools and Blazemeter.

As the COO, I was in charge of global operations for consultancy area: Test Automation, Performance Testing Continuous Delivery and DevOps missions.

Developer, Evangelist, Manager

enero de 2009 - febrero de 2013 (4 años 2 meses)

From writing code from scratch to hiring the team to make support, material design, development and testing. I traveled 5 countries as GXtest Evangelist inside GeneXus community, who is now officialy selled by GeneXus International.

Tandem

CTO & Co-founder

noviembre de 2025 - Present (5 meses)

Uruguay

We are building the foundations for the future of work in this AI era.

Apptim

Chief Technical Officer

mayo de 2019 - Present (6 años 11 meses)

CTO

julio de 2017 - Present (8 años 9 meses)

Montevideo

Board Advisor

enero de 2018 - mayo de 2019 (1 año 5 meses)

United States

As the previous CEO of the company and Product Owner, I contribute to the board with my experience in Mobile Testing and autonomous approaches for test automation.

Monkop

CEO

julio de 2014 - julio de 2017 (3 años 1 mes)

San Francisco Bay Area

We created Monkop because we knew that our monkeys would be able to learn and get smart enough until providing real failures and bottleneck reports to app's builders. Since then, we've started a great journey.

Grupo Quanam

3 años 1 mes

PeopleSoft Trainer

junio de 2005 - junio de 2008 (3 años 1 mes)

Technical consulting for PeopleSoft Enterprise.

Trainer in PeopleSoft Tools.

Peoplesoft Technical Consultant

junio de 2005 - mayo de 2008 (3 años)

Technical consulting for PeopleSoft Enterprise in Brasil, Mexico and Uruguay
Trainer in PeopleSoft Tools.
